

# Nadaf Facundo Federico

## FRONTEND DEVELOPER

"Facundo was a dedicated frontend developer trainee who brought creative ideas and enthusiasm in the competitive environment of Integrify, and was able to complete one Frontend and one Full-Stack Projects using React and Redux framework. He is a superb team player and will certainly add value to the next company he works for as a Full-Stack Developer," – Duy Nguyen, Full-Stack Instructor at Integrify.

## PROJECTS

### TRANSPORTE RICO WEBPAGE

React.js, Sass, React-Router, EmailJs

This is a webpage for a logistic company based in Buenos Aires, Argentina. In the page you can see a brief information about the company and also get in touch with them through a contact form.

### CRYPTO SEARCH

React.js, Zustand, Css

In this app you can search for your favourites crypto coins and find some information about it such as 24h low, 24h high, market cap, etc. Also in the landing page you can look which are the trending cryptos of the moment.

## WORKING EXPERIENCE

### FRONTEND DEVELOPER

MAKEIMPACT | DENMARK | 06/22 - 01/23

- Changed the hole theme of the app and also all the icons, images and fonts both in the database and in the aplication.
- Added functionabilites such as follow companies (inside the app), dropdown menues that shows updated information connected to the database and a few more.
- Edited the cards so the user can read more information about an specific company through 2 tabs.
- Created "Explore by sectors" component that shows 40 companies sectors splited in 4 rows so the user can go directly to the sector page.

### FULL STACK DEVELOPER TRAINEE

INTEGRIFY | FINLAND | 08/21 - 01/22

- Enrolled in an intensive 5-month software engineering fellowship with a 10% acceptance rate whose graduates are prepared with both technical and professional skills and have been hired as developers in renowned companies such as eBay Classifields, Orsted and Volvo Group Company.
- Contributed to front-end development with JavaScript and TypeScript to create two projects in less than three months.
- Applied frameworks such as React.js and Redux among CSS, SASS that resulted in the development of a collaborative front-end project.
- Improved understanding of back-end technologies using Node.js and Express.js by creating from start to deployment all the application request such as finding 30 orders via ID; modifying and reorganising the order.

### WAREHOUSE COORDINATOR

PINTA PORA | ARGENTINA | 08/17 - 08/19
